

Congressionally Directed Medical Research Programs Lupus Research as of January 12, 2010

PI	Research Organization	Amount	PRMRP Topic Title	Proposal Title
George Tsokos, Ph.D.	Beth Isreal Deaconess Medical Center, Boston	\$1,279,303	Lupus and Lupus Biomarker Research	T Cell Lipid Rafts and Complement Ligands for Diagnosis and Monitoring of SLE
Emily Gillespie, Ph.D.	University of Minnesota, Twin Cities	\$994,149	Lupus and Lupus Biomarker Research	Validation of Biomarkers in Systemic Lupus
Stephen Tomlinson, Ph.D.	Medical University of South Carolina	\$910,442	Lupus Research	Complement Inhibitory Therapy of Lupus
Prasad Devarajan, Ph.D.	Cincinnati Children's Hospital	\$850,090	Lupus Research	Early Prediction Of Lupus Nephritis Using Advanced Proteomics
Betty Diamond, Ph.D.	Feinstein Institute For Medical Research, Manhasset, NY	\$1,031,248	Lupus Research	Determination of the Role of Estrogen Receptors and Estrogen Regulated Genes in B Cell Autoreactivity
Joseph Ahearn, Ph.D.	University of Pittsburgh, Pittsburgh, PA	\$1,363,500	Lupus Research	Molecular and Functional Characterization of the Lupus Platelet
John Harley, Ph.D.	Oklahoma Medical Research Foundation	2009 named awardee (in contract negotiations)	Lupus Research	Genome-Wide Association Study in African-Americans with Systemic Lupus Erythematosus
Insoo Kang, Ph.D.	Yale University	2009 named awardee (in contract negotiations)	Lupus Research	Studying the Role for CD4+ T Cell Subsets in Human Lupus
