

**Alliance for Lupus Research**  
 Projects funded to date – studying B Cells and SLE

2000	Carter, Robert, MD	University of Alabama at Birmingham	AL	Novel Treatments of Lupus Targeting Receptors on B Cells	\$500,000
2000	Eisenberg, Robert, MD	University of Pennsylvania	PA	Therapeutic Targeting of B Cells in SLE	\$500,000
2000	Stohl, William, MD, PhD	University of Southern California	CA	SLE: A Blissless Disease of Unbridled BLYS (B Lymphocyte Stimulator)	\$500,000
2001	Silverman, Gregg, MD	University of California, San Diego	CA	Development of B Cell Superantigen-Based Therapy in SLE: Phase II	\$500,000
2002	Eisenberg, Robert, MD	University of Pennsylvania	PA	Therapeutic Targeting of B Cells in SLE	\$500,000
2002	Carter, Robert, MD	University of Alabama at Birmingham	AL	Novel Treatments of Lupus Targeting Receptors on B Cells	\$1,000,000
2003	Silverman, Gregg, MD	University of California, San Diego	CA	Development of B Cell Superantigen-Based Therapy in SLE: Phase II	\$757,545
2005	Marshak-Rothstein, Ann, PhD	Boston University School of Medicine	MA	Activation and Inhibition of TLR Activity in Autoreactive B Cells	\$437,358
2006	Anolik, Jennifer, MD, PhD	University of Rochester	NY	Biomarkers in SLE Patients Undergoing B Cell Depletion Therapy	\$74,995
2007	Marshak-Rothstein, Ann, PhD	Boston University School of Medicine	MA	Activation and Inhibition of TLR Activity in Autoreactive B Cells	\$500,000
Total					\$5,269,898

**As of July 21, 2009**
